

Name	ZENA CASTLE
Location	carpaneto-piacentino
Address	Strada Provinciale, 80
Description	<p>The foundation date of Zena Castle is unknown. The fortress still preserves the castle architectural characteristics of the structure, which has a square design: one of the four buildings was demolished in the 18th century. The western side with the main entrance still bears signs of a drawbridge. The ditch surrounding the complex has been recently excavated and revealed the presence of a fourth building and a tower. Inside there are an imposing fireplace surmounted by a coat of arms and interesting frescoes rediscovered not long ago.</p> <p>The Castle CANNOT BE VISITED FOR THE TIME BEING, but open on special occasions and for ceremonies. It is accessible upon reservation for research purposes.</p>
